(Say that like "Anna".) I'm the owner of Music-for-Music-Teachers.com, and a newer site, SingTheBibleStory.com. Like some of you, I've been playing the piano since early childhood, and have added a few other instruments along the way, plus an interest in arranging and composing music. You can find out more about me and the reason for this website at my About Me page. A rite of passage for musicians is having a song on the top 40 hits radio chart. The data analytics company Nielsen tracks what people are listening to every week in 19 different countries and compiles the information for Billboard music charts. Mainstream Top 40 The top 40 hits are pulled by the Hot 100 list published weekly by Billboard magazine. There are a number of factors that determine whether a song makes the top 40 list. They include: Sales: Nielsen tracks all of the physical and digital record sales from 19 different countries including the United States and Canada. This includes venues, mass merchants, retail chains, independent stores and digital downloads. Streaming music: The number of plays on online radio stations like Pandora, Spotify, Apple Music, Yahoo Music and AOL Music are counted toward the total number of streams. Playing a music video on YouTube also counts as a song play. Radio: Once a song becomes popular enough to be picked up by radio stations, it can gain a lot of traction and earn a spot on the Billboard Hot 100. Billboard Hot 100 The Billboard Hot 100 is published weekly by Billboard magazine. It's a list of the most popular 100 songs in the U.S. Billboard also tracks whether a song is higher or lower on the charts each week, its peak position and its total weeks on the chart. You can watch the music video and listen to almost every song directly on the Billboard website. In addition to the Hot 100, Billboard also tracks the Billboard 200 and the Artists 100. You can also view the top played songs on the radio, top streaming songs, top digital song sales and top hits of the year. Hot 200 Albums Chart The Hot 200 Albums Chart tracks the top-selling albums of the week. Often, the artist with the top-selling album is different from the artist with the top-selling single on the Billboard Hot 100. The Hot 200 Albums is released each Friday which is also the global release date for most new albums. To track sales and streaming, the Hot 200 Albums Chart schedule is delayed by a few days to encompass a full week of sales. For instance, if an album charts on January 27, it's total number of listens will be from the January 12-January 18 tracking week. Sales and Streaming While album sales are dropping in recent years, the use of streaming services is rising. In recent years, audio- and video-on-demand streaming services have set record highs for streams. Music consumption is up, but music sales are down. Radio The biggest AM/FM radio in the world is iHeartRadio. Radio is still the most popular way to consume music. For an artist to make the Top 40, he or she needs to have high radio plays. Nielsen tracks radio stations all over the country and measures what songs are being played. This information helps Billboard track the top songs in the country. MORE FROM QUESTIONS ANSWERED.NET The theme of this guitar chords site is simplicity. In the course of the free guitar lessons I teach, there was one recurring request from all students - to be able to play some of their favourite songs as soon as they have mastered the basic chords, so I have grown this guitar learners site over the years so that they can have a bunch of easy chords versions of top songs. The songs are arranged in basic printable song chords and lyrics format, with the chord changes indicated at the point in the lyrics where the change occurs. Scroll down the page to see the list of artists and song genres featured - the Rock Songs, Pop Songs and other Miscellaneous pages feature songs that don't appear on any of the specific artist song chords and lyrics pages. Click one of the artist song page links on the left for my list of songs by that artist, or you can select an artist or genre from the dropdown menu below. What you will find is song lyrics and easy guitar chords, in a simple format suitable for beginners. For songs with trickier chords I've included chord charts or diagrams. Some songs I transposed for convenience, so you might want to try a different key or use a capo. To change song key, check out my guide to guitar chord transposition and other Guitar Tips .
